

Get 'Em Bred!

In the cow-calf business, reproduction is the #1 economic trait. Live calves weaned per breeding age female is your best measure of economic success. A good AI program followed up with quality herd bulls is your best means to ensure profitability and herd advancement.

We have both.

With the breed's single most comprehensive AI sire line-up with 50 Aberdeen sires, friendly, prompt customer service and convenient ordering, we strive to be your "One Stop Semen Shop."

With over 200 registered Aberdeen cows, we have an excellent selection of fullblood and Aberdeen Moderator bulls, both red and black; we also strive to be your "Herdbull Headquarters."

Call Neil at (701) 471-0153, to discuss your needs.
